

STANDARDS AND LEGISLATION

ITALIAN LEGISLATION	INTERNATIONAL LEGISLATION	TITLE
CEI 20-22/2		Fire test on electrical cables Part 2: Flame retardant test.
CEI 20-22/4	IEC 332-3 HD 405.3 S1	Fire test on electrical cables Part 4: oxygen index measurement for non-metallic components.
CEI EN 60332-1-2		Fire test on electrical and optical cables under fire conditions Part 1-2: vertical flame retardant test on single conductor or cable – flame procedure of 1kW pre-mixed.
CEI EN 60332-2-2		Fire test on electrical and optical cables under fire conditions Part 2-2: vertical flame retardant test on small single conductor or cable – Spread flame process.
CEI 20-36/1-1	IEC 60331-11	Fire test on electrical cables under fire conditions – Circuit integrity Part 11: Equipment for tests with only fire, at least 750°C flame temperature.
CEI 20-36/2-1	IEC 60331-21	Fire test on electrical cables under fire conditions - Circuit integrity Part 21: Procedures and prescriptions – Cables with 0,6/1kV tension.
CEI 20-37/4-0		Test for cables under fire conditions – Test on gas emissions during cables materials combustion. Part 4: Definition of gas emissions toxicity index.
CEI EN 50200		Test fire resistant of small unprotected cables for backup circuit use.
CEI UNI 36762		Identification and tests to use for cable (cat.0) related to installation with cables cat. 1
